Couldn't find the information that you were looking for, or have suggestions for improving this page? EMC Data Domain Virtual Edition Version 3.0.1 Installation and Administration Guide 302-003-763 REVISION 01 NetWorker 9 saw the introduction of the service-catalogue like Policy/Workflow/Action configuration engine in NetWorker, which replaced the previous group based configuration. While policies could be manipulated from within NMC, and from the command line using nsrpolicy, they couldn't really be edited (unless you were feeling particularly brave) in nsradmin because they're maintained in ...
