

# Download Evinrude Light Twin Manual

Evinrude Outboard Motors is a North American company that builds a major brand of outboard motors for boats. Founded by Ole Evinrude in Milwaukee, Wisconsin in 1907, it was formerly owned by the publicly traded Outboard Marine Corporation (OMC) since 1935, but OMC filed for bankruptcy in 2000. It is now working as a subsidiary of Canadian Multinational Bombardier Recreational Products.

The sun is shining, the birds are singing, and you are cruising along the canal in your pontoon boat, just as happy as a clam. You get to the turn toward the first sandbar marker, and your Johnson outboard controls decide to take a vacation.

Waterman-the first outboard motor It was commonly believed for many years that Ole Evinrude invented the outboard motor. We have all heard the story of how Ole wanted a quicker way to cross the lake for ice cream for Bess, but three years prior to that, Cameron B Waterman applied for a patent for the same contraption-the outboard motor.
