

Download Xcel Cmm Machine Manual

Hello every one, Just wondering how I can change the parameter to make our CMM(Xcel B&S) more sensitive to "Unexpected" touches. When probe touches any thing as an unexpected touch, it does not react immediately, machine continue moving to over load the PH9 then machine will stop by Over load message by PH9. this is dangerous to TP20. specially on Vertical move, if machine touches a surface ...Get the latest technology without spending money on a new frame!
